TERMS OF REFERENCE (TOR)

1. Overview of National Livelihoods Mission implementation structure

The Mission aims to address the multifaceted challenges faced by urban poor households, particularly within the informal sector, by adopting an inclusive approach that includes urban poor households, especially women, the elderly, the differently abled, migrants, and marginalized communities. The Mission brings focus to vulnerable occupational groups, who are often marginalized within the broader labour market. This includes workers in sectors such as care, domestic, transportation, construction, gig, and waste workers, who face disproportionate challenges and barriers.

The Mission encompasses a comprehensive strategy for addressing these challenges by providing financial assistance for micro- enterprises and promoting access to credit. The Mission is aligned to the Sustainable Development Goals (SDGs) and aims to alleviate urban poverty and foster economic independence. Special attention is given to women through support for self-employment and participation in Self-Help Groups (SHGs) or Common Interest Groups (CIGs), thereby advancing gender equality and enhancing their economic and social empowerment. Additionally, the Mission focuses on creating sustainable livelihoods and decent work opportunities while striving to reduce inequalities and promote social inclusion among marginalized urban populations. This holistic approach contributes to the development of sustainable cities and communities, ensuring that urban growth translate into improved quality of life and resilience for all residents.

2. Objectives

- i. The key objective of the Mission is to address the occupational, social, and residential vulnerabilities of the urban poor population by adopting holistic and multi- pronged strategies that critically assess the identified concerns and lead to an enhanced and improved overall quality of life for the beneficiaries. This will be undertaken by:
 - strengthening grassroots-level community institutions,
 - promoting employment opportunities,
 - creating social infrastructure, and
 - providing social security and entitlements,
 - fostering innovation and collaboration through an inclusive approach and focused attention on specific vulnerable groups vis. Construction workers, transportation workers, gig workers, care workers, waste workers, and domestic workers.
- ii. The Mission will be implemented in all the statutory towns. The States/UTs are also allowed to implement all or any of the components of the Mission in any other Statutory Towns or areas falling within notified Planning/Development area under the jurisdictions of an Industrial Development Authority/Special Area Development Authority/Urban Development Authority etc based on the local capacity and requirement.
- iii. The Mission will prioritise the inclusion of women as a focus target group and expand its benefits to include those engaged in vulnerable occupations.
